ABOUT ME

Hi there, I am a colorful creative frontend developer and designer. I decided to shift my focus from code to design and started my journey by studying UX/UI design at Experience Haus.

I am not afraid to take responsibility and take on new challenges. I enjoy working in a team where I can learn from others as well as share my own knowledge and experiences.

In my spare time, I volunteer with the association DataTjej, and act as a code coach at Tjejer Kodar to inspire and engage more women to seek into the IT industry.

ANDREA OSMAR

Designer & Developer

EXPERIENCE

Redmind - Front-end Developer Intern

March 2021- May 2021

Internship to gain some hands-on experience on a live product. Redmind assigned me to the company Mapping Industries, where I worked on developing the mobile app. Front-end in React Native and Typescript.

Scandic Group & Meeting - Sales Agent

August 2019 - February 2021

Starting up Scandic's new sales office in Stockholm where we handle all of the Scandic hotels in Sweden. Working strongly with sales goals, customer service, prospecting and closing deals.

Haymarket - Event & Conference Manager

March 2017 - February 2021

Responsible for the entire conference and event department at the luxury hotel, managing the operation, economy of the department as well as recruiting and coaching my staff. Planning, coordinating and executing all sorts of events, from daily conferences to banquet dinners and big parties.
